

AIEF Mentor Program grows in 2014

The *AIEF Mentor Program* aims to create a structured and trusting one-on-one relationship between a student and an experienced, professional individual who shares knowledge and offers guidance and support about life and career options. Students and mentors meet once a month in face-to-face sessions as well as at group activities with a more social focus.

The *AIEF Mentor Program* is getting underway with events around the country in the coming weeks.

Now operating in four states, the program will include over 50 new mentoring pairs in 2014, bringing the total number of pairs to over 120.
